EU Directive 2011/65/EU RoHS II Exclusion

AMETEK Sensor Technologies manufactures various industrial controls and level- sensors designed to detect and control large scale equipment and their processes. According to directive 2011/65/EU RoHS II, Article 2 (4)(c)(d)(e):

4. This Directive does not apply to:

(c) equipment which is specifically designed, and is to be installed, as part of another type of equipment that is excluded or does not fall within the scope of this Directive, which can fulfil its function only if it is part of that equipment, and which can be replaced only by the same specifically designed equipment;

(d) large-scale stationary industrial tools;

(e) large-scale fixed installations;

And as clarified in Article 3 (3)(4):

(3) ‘large-scale stationary industrial tools’ means a large-scale assembly of machines, equipment, and/or components, functioning together for a specific application, permanently installed and de- installed by professionals at a given place, and used and maintained by professionals in an industrial manufacturing facility or research and development facility;

(4) ‘large-scale fixed installation’ means a large-scale combination of several types of apparatus and, where applicable, other devices, which are assembled and installed by professionals, intended to be used permanently in a pre-defined and dedicated location, and de-installed by professionals;

The following products are specifically designed for large scale fixed and/or stationary industrial tools and installations and are thus excluded from the scope of the directive:
