Section 1: Introduction

1.1 System Description

The AMETEK Drexelbrook Model 750 Series Submersible Level Transmitter is a solid state instrument designed for direct submergence in liquid for quick, accurate and reliable level measurements. The transmitter indicates the level of liquid by continuously measuring hydrostatic pressure via its sensing element, an ion implanted silicon chip consisting of a full Wheatstone bridge circuit used with a metal diaphragm to seal the element from corrosive fluids. It then transmits the level via a 4-20 mA output signal. All the electronics are mounted in a submersible 316 stainless steel housing. The snub nose can be removed exposing a 1/2” NPT-M

The electrical connection is a 3 wire, 20 gauge shielded waterproof cable which is vented via the interstices between conductors to reference atmospheric pressure. The cable support provides extra stability for longer lengths of cable or for use with agitated liquids.

1.2 Model Number

Section 2: Installation

Safety Information

The 750 Transmitter is designed for use within installation Category II Environments as defined in IEC664: 1980/PD6499: -1981 and UL 873. The overall system is designed to prevent accidental shock to the operator when properly used. No design, however, can insure the safety of an instrument improperly installed or used negligently. Read this manual carefully and completely before operating the instrument. Failure to read this manual in its entirety could result in damage to the instrument or injury to the operator.

To avoid possible shock hazard install in a grounded enclosure, prevent live parts being touched and ground the sensor sheath and housing. Follow wiring diagrams and local regulations. Installations where failure of this equipment may cause personal injury, property loss, equipment damage or financial loss, backup failsafe protection must be used.

2.1 Unpacking & Inspection

Carefully remove the contents of the shipping carton and check each item against the packing list before destroying any packing material. If there is any shortage or damage, report it to the factory immediately.

When this transmitter is used with the AMETEK Drexelbrook DDMC Controller, the transmitter Model Number is identified on the nameplate of the DDMC in the section labeled “USED WITH.” This is because the DDMC is configured for, and should be used only with a specific Submersible Transmitter.

Look for a correlation between the two instruments.

2.2 Operational Checkout

Before installing the Series 750 Transmitter, make sure the system is operating by doing a bench check.

WARNING:
Do not connect any wires while AC Power input is applied.

For temporary connections, refer to diagrams in Wiring Section 2.4 of this manual. Connect AC power to the controller and/or with which it is to be used. Apply power and allow a five-minute warm-up.

With no pressure applied to the transmitter, the meter should display zero (or for “drawdown” the reading corresponding to the depth below ground level where the transmitter will be when installed.)
2.2 Operational Checkout (continued)

CAUTION: Do not simulate an increase in pressure by applying mechanical force to the sensing diaphragm of the transmitter. Excessive force will result in damage to or destruction of the transmitter.

When pressure is applied to the transmitter, the display should increase, and then return to the original reading when pressure is removed. The Transmitter can be pressurized by lowering it into water or by applying air pressure from a calibration device. To apply air pressure unscrew the snubnose and replace it with a 1/2 “ NPT pressure fitting.

2.3 Mounting

2.3.1 Dimensions

![Dimensions Diagram]

2.3.2 Placement

The Well WatcherTM Model 750 Series Transmitter can be suspended in a well or tank supported only by its attached shielded electrical cable.

Additional support can be provided when the transmitter is being used under circumstances of excess stress, such as when submerged in agitated water or when suspended with electrical cable longer than 100 ft. The cable support feature on the transmitter provides this extra strain relief (see Figure 2-1).

CAUTION: Do not allow transmitter to remain in liquid when it freezes solid. This will apply mechanical force to the sensing diaphragm of the transmitter. Excessive force will result in transmitter damage or destruction.
2.3.3 Model 750 Series Transmitter (continued)

![Diagram](image)

**Figure 2-1**

*Transmitter Installation Considerations*

**CAUTION:** The cable grommet is specially installed by factory-trained personnel to assure that it remains watertight. Any adjustment or removal of the grommet may destroy the watertight seal exposing the transmitter to water seepage, causing an electrical short and transmitter failure. Any adjustment or removal of the cable grommet voids the warranty.

**CAUTION:** The waterproof cable should not be kinked or nicked, which will allow water to seep into the cable and short out the transmitter.

**CAUTION:** The surface end of the cable should NOT be sealed since it references the transmitter to atmospheric pressure.

2.3.4 Provide Signal Noise Isolation

The transmitter should not be mounted close to high current switching relays or in an enclosure containing such relays. Low voltage wiring (transmitter signal wires and analog output wires) should be separated from high voltage wiring (115, 230 & 440 Vac) and should be shielded.
2.4 Wiring

Figure 2-2
Transmitter Wiring Identification

WARNING:
Do not connect any wires while power is applied.

2.4.1 Surge Protection

Surge protectors are available as an option item (see Parts & Accessories in Section 3 of this manual). It is strongly recommended to protect from secondary surges and lightning on outdoor installations. Install in accordance with the applicable drawing that is supplied with the surge protector and the following instructions:

1. Lightning protection devices should be placed as close to the meter or transmitter as possible and wired in accordance with Local Electrical Codes in an approved watertight enclosure.

2. If the distance between the meter and transmitter, or meter and recorder is less than 100 ft., only one protector per line is needed.

3. Use No. 8 AWG ground wire or better from protector.

4. Keep ground wire less than one foot long and tie to a suitable ground rod or metal frame ground. Surge capability is only as good as the grounding method. All ground connections must be installed.

5. Install protectors in weather-tight enclosures.

6. Run signal lines shielded and away from power lines.

7. Mount the fused switch panel as close to the meter as possible. Wire according to the Local Electrical Code.

8. Lead lines for 110 Vac and 220 Vdc protectors should be cut as short as practical.

CAUTION: This or any installation can not protect against a direct lightning strike, or secondary strikes of sufficient magnitude. AMETEK cannot accept liability for damage due to lightning or secondary surges.
2.4.2 Lightning Protection Wiring

Here is a typical wiring arrangement to a controller/meter. Shown here are connectors to an AMETEK Drexelbrook Controller.

**Figure 2-4**
Wiring with Lightning Protection Options

**Figure 2-3**
Wiring with NO lightning Protection Options
2.4.3 Lightning Protection Installation Concept

1. Lightning protection devices should be placed as close to the instrument as possible.

2. If the distance between the power source and transmitter, and/or other loop device is less than 100 ft., only one protector is required between devices.

3. This or any installation cannot protect against a direct lightning strike, or secondary strikes of sufficient magnitude. AMETEK Drexelbrook cannot accept responsibility for damage due to lightning or secondary surges.

4. Proper installation including grounding require detailed installation drawing. Consult factory.

![Figure 2-5 Typical Lightning Protection Concept](image-url-removed)
Section 3: Accessories

LMA912 - 30Vdc Lightning and surge protector for excitation and signal lines to the milliampere transmitter or meter analog output lines to other instruments

LMA918 - Lightning and surge protector for 115Vac input line to a controller/meter

LMA919 - Lightning and surge protector for 230Vac input line to a controller/meter

3.1 Ordering Parts & Accessories

When ordering replacement parts, supply the following information:
1) Part description and part number.
2) Quantity of each item required.
3) Shipping instructions and address.

Contact your local AMETEK Drexelbrook representative, or Mail, Telephone or Fax Orders to:

AMETEK Drexelbrook
205 Keith Valley Road\
Horsham, PA 19044-1499
(215) 674-1234; FAX: (215) 674-2731
WARNING:
If the Level Measurement System is located in a hazardous environment, do not open
the enclosure cover or make/break any electrical connections without first disconnecting
electrical power at the source. Ensure that the wiring, electrical fittings and conduit
connections conform to the electrical codes for the specific location and hazard level.

4.1 Problem/Cause/Checks

Controller/meter Display drifting:
May be water in cable causing short circuit; look for kink or damaged cable; check for
broken wires, loose or corroded connections, or obvious short circuits;
Measuring resistance from Red to Black, should read >26 M-Ohm.
Measuring resistance with Red and Black tied together to Green should read >20 M-Ohm
Any reading less than the published values indicate a defect and probable moisture in
cable / Damaged Cable.

Controller/meter Display incorrect:
May be wrong transmitter connections; check wiring.
May be defective transmitter; check as above, replace transmitter.
May also be controller/meter problems, such as calibration.

4.2 Factory Assistance

AMETEK Drexelbrook can answer any questions about Well Watcher System. Call
Customer Service at
1-800-553-9092 (US and Canada) or
+ 215-674-1234 (International).

If you require assistance and attempts to locate the problem have failed:
• Contact your local Drexelbrook representative,
• Call the Service department toll-free at 1-800-527-6297
  (US and Canada) or + 215-674-1234 (International),
• FAX the Service department at + 215-443-5117, or
• E-Mail to drexelbrook.service@ametek.com

Please provide the following information:
Instrument Model Number 
Sensing Element Model Number and Length 
Original Purchase Order Number 
Material being measured 
Temperature 
Pressure 
Agitation 
Brief description of the problem 
Checkout procedures that have failed
4.3 Field Service

Trained field servicemen are available on a time-plus-expense basis to assist in start-ups, diagnosing difficult application problems, or in-plant training of personnel. Contact the service department for further details.

4.4 Equipment Return

In order to provide the best service, any equipment being returned for repair or credit must be approved by the factory prior to return shipment.

In many applications, sensing elements are exposed to hazardous materials.
• OSHA mandates that our employees be informed and protected from hazardous chemicals.
• Material Safety Data Sheets (MSDS) listing the hazardous materials to which the sensing element has been exposed MUST accompany any repair.
• It is your responsibility to fully disclose all chemicals and decontaminate the sensing element.

To obtain a return authorization (RA#), contact the Service department at 1-800-527-6297 (US and Canada) or + 215-674-1234 (International).

Please provide the following information:

Model Number of Return Equipment ________________________________
Serial Number ________________________________
Original Purchase Order Number ________________________________
Process Materials to which equipment has been exposed ________________________________
MSDS sheets for any hazardous materials ________________________________
Billing Address ________________________________
Shipping Address ________________________________
Purchase Order Number for Repairs ________________________________

Please include a purchase order even if the repair is under warranty. If repair is covered under warranty, you will not be charged.

Ship equipment freight prepaid to:
Ametek Drexelbrook
205 Keith Valley Road
Horsham, PA 19044-1499
Cod Shipments Will Not Be Accepted.

4.5 Customer Training

Periodically, AMETEK Drexelbrook instrument training seminars for customers are held at the factory. These sessions are guided by Drexelbrook engineers and specialists, and provide detailed information on all aspects of level measurement, including theory and practice of instrument operation. For more information about these valuable workshops, write to:
AMETEK Drexelbrook, attention: Communications/ Training Group, or call direct (215) 674-1234.
Section 5: Specifications

5.1 Model 750 Series Transmitter

Functional Specifications

- **Range Limits:** Reference Model Code
- **Output:** 4-20 mAdc, limited to 30 mAdc
- **Power Supply:** 12 to 40Vdc w/polarity protection (limited to 28Vdc for I.S. use)

Temperature Limits:

- **Reference Model Code:** (Damage will occur if submerged in liquid that freezes)
- **Ambient Operating:** CSA intrinsically safe
  - T3C = 32°F to 140°F (0°C to 60°C)
- **Silicone Fill:** -25°F to 180°F (-32°C to 82°C)
- **Mineral Fill:** 10°F to 140°F (-12°C to 60°C)
- **Storage:** -40°F to 180°F (-40°C to 82°C)
- **Loop Resistance:** 600 ohms max @ 24 volts

Performance Specifications

- **Zero Offset:** ±0.50% Full Scale, Set at 77°F (25°C)
- **Span:** ±0.50% Full Scale, Set at 77°F (25°C)
- **Accuracy:** ±0.25% Full Scale, Best Fit Straight Line (BFSL). Including linearity, hysteresis and repeatability; ±0.50% full scale (6 psi range only)
- **Stability:** ±0.5% Full Scale per six months
- **Temperature Effect:** 23°F to 130°F (-5°C to 55°C);
  - ±1% Upper Range Limit (URL) for 77°F (25°C) temperature change within compensated range.
- **Power Supply Effect:** ±0.005% Full Scale per Volt
- **Proof Pressure:** 200% Upper Range Limit (URL)
- **Burst Pressure:** >2 times Upper Range Limit (URL)

Physical Specifications

Materials of Construction

- **Cable Jacket:** Polyurethane
- **Diaphragm:** Type 316L Stainless Steel or Hasteloy C
- **Cover:** Type 316 Stainless Steel
- **Nut/Washer:** Type 316 Stainless Steel
- **Cable Grommet:** Viton
- **Cover “O” Ring:** Viton
- **Snub Nose:** Nylon 6/6, removable (1/2 inch NPT threads)

Electrical Connection: 20 AWG Shielded Cable, Assembled at factory only

Weight: 1 pound (454 g).

Media Compatibility: Any media compatible with materials listed above.
5.2 Approvals

Meets CSA requirements for Intrinsically Safe (I.S.) operation in hazardous locations as designated by Class I, Div 1, Groups A, B, C, & D, and Class II, Groups E, F, & G. Temperature Code T3C (When used with approved barrier).

NOTES:
1. USE ANY CSA CERTIFIED SINGLE CHANNEL ZENER DIODE BARRIER. HAVING SAFETY PARAMETERS OF 28 V MAX/290 OHM MIN. FOR THE SINGLE BARRIER CONFIGURATION OR FOR THE SUPPLY BARRIER IN THE 2 BARRIER CONFIGURATION, FOR THE RETURN BARRIER IN THE 2 BARRIER CONFIGURATION, USE AND CSA CERTIFIED DIODE-RETURN BARRIER.
2. TO ASSURE AN INTRINSICALLY SAFE SYSTEM, THE TRANSMITTER MUST BE WIRED IN ACCORDANCE WITH THE BARRIER'S MANUFACTURER'S FIELD WIRING INSTRUCTIONS.
3. INTRINSICALLY SAFE FOR HAZARDOUS LOCATIONS, CLASS I: GROUPS A.B.C.D. CLASS II: GROUPS E.F.G. AND CLASS III.
TERMS AND CONDITIONS OF SALE

GENERAL: ALL ORDERS ARE SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS. ANY ACCEPTANCE OF ANY OFFER OF BUYER FOR ANY GOODS OR SERVICES IS CONDITIONED UPON THESE TERMS AND CONDITIONS, AND SELLER OBJECTS TO ANY AND ALL DIFFERENT TERMS PROPOSED BY BUYER OR CONTAINED IN ANY DOCUMENT, WHICH SHALL NOT BE BOUNDING UPON SELLER. No salesman or other party is authorized to bind the AMETEK DREXELBROOK Division of AMETEK, Inc. (hereinafter “Seller”) by verbal agreement, promises, or undertakings herein expressed, and no modifications shall be binding on Seller unless the same are in writing and signed by an executive officer of Seller or his or her duly authorized representative. Verbal orders shall not be executed until written notification has been received and acknowledged by Seller.

QUOTATIONS: Written quotations are valid for thirty (30) days unless otherwise stated. Verbal quotations expire the same day they are made.

PRICES: All prices and terms are subject to change without notice. Buyer-requested changes to its order (“Orders”), including those affecting the identity, scope and delivery of the goods shall be subject to agreement, approval, or terms as specified in the Buyer’s order, as noted by the Buyer, but not later than (1) year from date of invoice from Seller; (2) the goods were defective in materials or workmanship at the time of shipment or (3) Seller’s inspection shall disclose to its satisfaction that the goods were not of the kind, quality or quantity ordered by Buyer or used only for the purpose for which the items were furnished.

DELIVERY: Shipment is F.O.B. place of manufacture (“Shipping Point”) and the Buyer shall pay all transportation charges, duties, fees, insurance, storage, handling, or similar charges from Shipping Point. Delivery of goods to common carrier shall constitute delivery and payment of title to the Buyer, and all risk of loss or damage in transit shall be borne by Buyer. Any losses or damages for fire, loss, or theft (or losses for damage or destruction after such delivery shall be the responsibility of Buyer.

Seller reserves the right to make delivery in instalments which shall be separately invoiced and paid for when due, without regard to subsequent deliveries. Delay in delivery of any instalment shall not relieve Buyer of its obligation to accept remaining deliveries. Acknowledged shipping dates are approximate only and based on prompt receipt of all necessary information from Buyer and Buyer’s compliance with terms of payment.

TAXES: All sales, excise and similar taxes which may be required to be paid or collect with respect to the goods and/or services covered by any Order(s) shall be for the account of the Buyer except as otherwise provided by law or unless specifically stated otherwise by Seller in writing.

TERMINATION AND HOLD ORDERS: No Order may be terminated by Buyer except upon written request by Buyer and approval by Seller, and if said request is approved by Seller, under the following conditions: (1) Buyer agrees to accept delivery of all of the units completed by Seller through the workday on which Seller receives the written termination request; (2) Buyer agrees to pay to Seller all direct costs and expenses applicable to the portion of the Order that is incomplete.

WARRANTY:
A. Hardware: Seller warrants its goods against defects in materials and workmanship under normal and customary conditions of use for a period of one (1) year from the date of invoice. Seller shall have the right to repair or replace any goods found to be defective during this warranty period. If the goods are returned to Seller, Seller shall pay the return shipping charges and Seller shall pay the cost of repair or replacement. Buyer shall pay the cost of any labor, materials, or services related to the repair or replacement of the goods. If Seller determines that the defects are caused by unreasonable use, neglect, or accidental damage, Seller shall notify Buyer and Buyer shall be responsible for all costs associated with the repair or replacement of the goods.

B. Software and Firmware: Unless otherwise specified, Seller warrants a period of one (1) year from date of invoice that standard software or firmware, when used with Seller specified hardware, shall perform in accordance with Seller-published specifications. Seller makes no representation or warranty, expressed or implied, that the operation of the software or firmware shall be uninterrupted or error-free, or that functions contained therein shall meet or satisfy the Buyer’s intended use or requirements.

C. Services: Seller warrants that services, including engineering and custom application, whether provided on a fixed cost or time and material basis, shall be performed in accordance with generally accepted industry practices.

D. Remedies: Seller’s liability under this section is restricted to replacing, repairing, or issuing a credit in Seller’s option) for any returned goods and only under the following conditions: (1) Seller must be promptly notified, in writing, as soon as possible after the defect has been noted by Buyer, but not later than one (1) year from date of invoice from Seller; (2) The defective goods are to be returned to the place of manufacture, shipping charges prepaid by Buyer; (3) Seller’s inspection shall disclose to its satisfaction that the goods were defective in materials or workmanship at the time of shipment; (4) Any warranty service (consisting of either time, travel and expenses related to pay) incurred prior to Buyer’s acceptance of goods at Seller’s factory, shall be at Buyer’s expense.

E. Repair/Reconditioned Goods: As to out-of-warranty goods which Seller has repaired or reconditioned, Seller warrants for a period of sixty (60) days from the date of invoice new components replaced in the most recent repair/reconditioning.

F. Returns and Adjustments: No goods may be returned unless authorized in advance by Seller and then only upon such conditions to which Seller may agree. Buyer must obtain a Return Material Authorization (RMA) number from Seller prior to return any shipment and such RMA number must be noted on packing slip. Buyer shall be responsible for the returned goods until such time as Seller receives the same at its plant and for all costs of packing, inspection, shipping, transportation, or insurance associated with returned goods. In the event that credit for returned goods is granted, it shall be at the lesser of the then current prices or the original purchase price. Claims for shortage or incorrect material must be made within (5) days after receipt of shipment.

ALL OTHER WARRANTIES, FOR ANY OF SELLER'S GOODS OR SERVICES, WHETHER OR NOT IMPLIED, EXCEPTED, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PURPOSE ARE EXCLUDED.

INTELLECTUAL PROPERTY: Seller’s sale of goods or provision of related documentation or other materials to Buyer shall not transfer any intellectual property rights to Buyer unless Seller specifically agrees to do so in writing. Seller shall retain ownership of all applicable patents, trademarks, copyrights, trade secrets, processes, know-how, or other intellectual properties, nor shall Buyer be entitled to copy or transfer any such items in violation of Seller’s intellectual property rights or applicable law, or for any purposes other than that for which the items were furnished.

Seller shall defend any lawsuit brought against the Buyer based on a claim that the design or construction of the goods sold hereunder by Seller infringe any United States or Canadian Patents or Right of Mask Work Copyright, provided that Buyer promptly notifies Seller of such claim in writing and further provided that, at Seller’s expense, (1) Buyer gives Seller the sole and exclusive control or direction of the defense of such claim; (2) Buyer procures such other counsel as Seller may designate at Seller’s expense and (3) Buyer shall not continue using such goods; (ii) replaces or modifies goods to avoid infringement; or (iv) accepts the return of any infringing goods and refunds their purchase price; or (v) defends against such claim.

If Buyer furnishes specifications or designs to Seller, the obligations of Seller set forth above shall not apply to goods made by Seller using such specifications or designs, and Buyer shall defend, indemnify and hold Seller harmless against any third party claims for infringement which arise out of Seller’s use of specifications or designs furnished by Buyer.

SOFTWARE LICENSE: If goods purchased hereunder include software (“Software”), Buyer must agree to the following terms: (1) Buyer may only use the Software for its intended purpose; (2) Buyer may not loan or rent the Software or use it on a timeshare basis; (3) the Software is licensed, not sold, to Buyer; (4) the Software shall be used only as part of the goods purchased hereunder and Buyer may not use, copy, or transfer any of the Software except as may be permitted under the applicable License Agreement provided with the goods. Buyer’s right to use, copy or transfer the Software shall terminate upon termination of these terms and conditions. Buyer’s right to use, copy or transfer the Software under the License agreement as may be permitted by the applicable License Agreement provided with the goods. Buyer’s right to use, copy or transfer the Software shall terminate upon termination of these terms and conditions.

PACKAGING WEIGHTS AND DIMENSIONS: Buyer specified packing or marking may be subject to additional charges not otherwise included in the price of the goods. Published weights and dimensions are estimates or approximate only and are not warranted.

FORCE MAJEURE: Seller shall not be responsible for delays in delivery or failure to deliver due to causes beyond Seller’s control, including but not limited to the following: acts of God, war, terrorism, riots, civil commotion, domestic or foreign governmental regulations or orders, governmental priorities, port congestion, acts of the Buyer, its agents or employees, fires, floods, strikes, lockouts and other labor difficulties, shortages of or inability to obtain shipping space or transportation, inability to secure fuel, supplies or power at current prices or on account of shortages thereof, or due to limitations imposed by the extent of availability of Seller’s normal manufacturing facilities.

If a delay exceeds the above extends for more than ninety (90) days and the parties have not agreed upon a revised basis for continuing providing the goods or services at the end of the delay, including adjustment of the price, then Buyer, upon thirty (30) days’ prior written notice to Seller may terminate the Order with respect to the unexecuted portion of the goods or services, whereupon Buyer shall promptly pay Seller its reasonable termination charges upon submission of Seller’s invoices thereof.

LIMITATION OF LIABILITY: Seller’s liability for any claim of any kind, except infringement of intellectual property rights, shall not exceed the purchase price of any goods or services which give rise to the claim. SELLER SHALL IN NO EVENT BE LIABLE FOR BUYER’S MANUFACTURING COSTS, LOST PROFITS, LOSS OF USE OF THE GOODS OR SERVICES, COST OF CAPITAL, COST OF SUBSTITUTE GOODS, SERVICES OR REPLACEMENT POWER, DOWNTIME COSTS, CLAIMS OF BUYER’S CUSTOMERS FOR DAMAGES, OR OTHER SPECIAL, PROXIMATE, INCIDENTAL, INDIRECT, EXEMPLARY OR CONSEQUENTIAL DAMAGES. In the event an action is brought against Seller, Buyer must specifically agree to in writing. At Seller’s request, Buyer shall furnish Seller with end-use and end-use information to determine export license applicability. Buyer warrants, in accordance with U.S. Export Law, that goods sold hereunder shall not be destined for facilities or activities involving nuclear, chemical or biological weapons, or related missile delivery systems in named prohibited regions or countries.

GOVERNING LAW: Seller intends to comply with all laws applicable to its performance under these terms and conditions. Seller shall not be responsible for any authorized changes, modifications or amendments thereto shall be governed by the laws of the Commonwealth of Pennsylvania and severability of any provision of these terms and conditions shall not be construed as a waiver of any other provision.

EXPORT CONTROL: Buyer shall comply with all export control laws and regulations of the United States, and all sales hereunder are subject to those laws and regulations. Seller shall not be named as shipper or exporter of record for any goods sold hereunder unless specifically agreed to in writing by Seller. At Seller’s request, Buyer shall furnish Seller with end-use information to determine export license applicability. Buyer warrants, in accordance with U.S. Export Law, that goods sold hereunder shall not be destined for facilities or activities involving nuclear, chemical or biological weapons, or related missile delivery systems in named prohibited regions or countries.

SEVERABILITY AND ENTIRE AGREEMENT: If any provision of these terms and conditions is declared to be invalid or unenforceable, the remaining provisions of these terms and conditions shall not be affected or impaired hereby. This writing together, with any other terms and conditions Seller specifically agrees to in writing, constitutes the entire agreement of the parties and supersedes all prior negotiations of representations and agreements, oral or written, between Seller and Buyer and supersedes any and all prior discussions, and negotiations on its subject matter.
